

What is Help Me Grow?

Help Me Grow provides **family support, developmental screenings,** and age-appropriate **activities** to prepare children for preschool. We also provide specialized services for families who have **concerns about their child's development**. We meet with pregnant women and families with young children in their **home** and in the community. Research shows that **80%** of the brain is developed by the time the child is 3 years old. Our goal is to support parents as their child's first and most important teacher so that the child enters preschool ready to **SUCCEED**.

What can you expect?

Trained professionals with experience in the area of child development will:

- Schedule visits at a time and place that are convenient for you
- Answer questions about your child's health and development and encourage healthy pregnancies
- Conduct developmental screenings and assessments
- Support your goals for your child and family
- Connect you to resources and services in the community
- Assist with transitioning your child to preschool or child care
